

Mr. Donald E. Keith  
Division Administrator for Northern Virginia  
Virginia Department of Highways & Transportation  
P.O. Box 429  
Fairfax, Virginia 22030

Dear Mr. Keith:

STAT A final master plan for the CIA Headquarters at McLean was recently acted upon favorably by the National Capital Planning Commission (NCPC). One of several recommendations accompanying the NCPC action was the suggestion that the Agency work with your Department to identify necessary and acceptable road improvements. It is our intent to act on this recommendation at your earliest convenience. Please contact me at [redacted] to arrange preliminary discussions.

STAT  
STAT It is recognized that the time pressures created by the Federal review process led to a hurried review of our master plan by your staff. This undoubtedly created some of the misunderstandings noted in Mr. Gehr's response to [redacted] dated 18 December 1981. Attached is a point-by-point response to those comments prepared by our traffic consultant at our request. The purpose is to reach a better mutual understanding of the traffic issues involved. It is not intended to prolong what we view as a nonproductive debate over analytical methodology.

Sincerely,

/s/ James H. McDonald

James H. McDonald  
Director of Logistics
